COMPANY
PROFILE

An insight into the Company

Since its inception in 1992, Power One Micro Systems Private Limited has shown consistent growth in the field of manufacturing On-Line UPS Systems with IGBT rectifier, Outdoor UPS Solutions, 60 Hz 400Hz Frequency converters, Isolation Transformers, Servo Controlled Voltage Stabilizers, Static Voltage Stabilizer, DC Power Supplies, Powergrid & BIS certified Industrial Inverter, EV Chargers, Solar On Grid Inverters, OFF Grid Inverters, Hybrid Inverters, MPPT Charge controllers, Energy Storage system with Lithium Batteries and Solar Power Plants.

Visionaries at the helm

Spearheading the growth of the company is a core group of highly motivated and dedicated individuals who with their experience and dynamic leadership have taken Power One Micro Systems to greater heights of achievement. The company has a distinct identity and creditable standing in the UPS market. It is only right that the credit and recognition is attributed to the promoters Mr. I.B.Rao and Mr. M.R.Rajesh.

Today, Powerone have three manufacturing Units at Peenya Industrial Area, Bangalore with Built up area of 15000 Sq. Ft, 18000 Sq. Ft & 25000 Sq. Ft. respectively. The company has around 400 employees nationwide, with 100 Factory trained Service Engineers. Power-One Micro Systems Pvt. Limited being a Quality Conscious Company and its factories are accredited with ISO 9001, ISO 14001, ISO 45001 and ISO 50001 Certification.

A feather in the cap of Power One Micro System was winning the NATIONAL AWARD in 2007 from MSME, Government of India as manufacturers of outstanding quality UPS Systems.

To meet the quality expectations of ever-increasing customer's base, Power One has strived continuously to build a strong and quality products line. The company has upgraded itself with the latest technology and a highly modern and state-of-the-art manufacturing facility in Bangalore. Power-One Micro systems Pvt Ltd has created a well-established infrastructure with sales and services centers spread across Pan India.

Product Portfolio:

UPS MODELS

- UHF Series 1-10 kVA Single Phase UPS
- PTM Series 6 kVA to 30 kVA Single Phase UPS
- PMP Series 10 kVA to 500 kVA ITx Three Phase UPS
- PPT Series 10 kVA to 120 kVA ITx Three Phase UPS
- PPM Series 10 kVA to 200 kVA Three Phase UPS
- PMM Series 6 kVA to 4000 kVA Modular UPS

GRID TIE INVERTER

- SGTU Series 1-6 kW Single Phase
- SGTU Series 5-250 kW Three Phase

HYBRID INVERTER WITH EXPORT

- SGTU Hybrid Series
- 1-30 kW Three/Single Phase

OFF GRID INVERTER

- 1 kVA to 10 kVA Single Phase
- 5 kVA to 100 kVA Three Phase

SOLAR ENERGY STORAGE SYSTEM WITH LITHIUM BATTERY

- 1 kW to 60 kW Single/Three Phase

EV CHARGERS

- AC chargers:
 - 3.3 kW and 10 kW AC001
 - 7.4 kW 22 kW, 44kW Type 2
- DC fast chargers:
 - 30 kW, 48 kW, 60 kW, 90 kW, 120 kW, 180 kW CCS2
 - 30 kW 50 kW Chademo
- Combo Charger 122 kW, 142 kW

OTHER PRODUCTS

- Servo Controlled Voltage Stabilizers 10 kVA to 1000 kVA
- Isolation Transformers 10 kVA to 1000 kVA
- Battery Chargers
- Outdoor UPS solutions
- 60 Hz and 400Hz Frequency Converters
- Static Voltage Stabilizer
- DC Power Supplies
- Solar MPPT Charge controllers
- Solar Power Plants
- Solar Pump Controllers

Quality Policy:

Power-One is committed to total customer satisfaction through:

- Design, Manufacture and prompt delivery of superior quality products
- Efficient service support throughout the product life cycle.
- Meeting Customer and regulatory requirements.
- Continual improvements in the effective Quality Management System.

Environment Policy:

Power-One Micro Systems Pvt. Ltd. is committed to protection of environment and continual improvement in our environmental performance through implementation of Environmental Management System which includes:

- Preventing pollution and achieving performance complying with all applicable environmental laws and regulations.
- Setting and achieving environmental objectives and targets, improvement in processes and operations to continually improve environmental performance
- Minimizing waste and incorporating environmental best practices.

- Conserving of natural resources like energy, water, fuel and paper on continual basis.
- Making our employees aware on the policy and preserving environment through continuous training.
- Ensuring the availability of environmental policy to all employees, people working on behalf of the company and public

Growth:

Ever since its inception, the company is being grown consistently with a sound and healthy growth rate. Needless to say the product range has diversified to an amazing extent, meeting the requirements and expectation of the industry as also our customers.

Annual Turnover:

Over the years, the products have carved a niche for themselves in the market. As a result the turnover has steadfastly increasing. We have been growing at rate of 100% year after year with a work force about 400 people spread across Pan India.

Objective: A clear cut goal

With a clear-cut strategy to emerge as leaders in the market we at Power-One Micro Systems Pvt Ltd, constantly strive to provide our customers with latest in power conditioning products. Our major emphasis has been on constant Research and Development to bring new reliable and user-friendly products to the customer thus by reducing MTTR.

Power One Philosophy:

A COMMITMENT TO QUALITY

It is our firm belief that staying ahead in the field is not merely enough. There by, realizing the need and understanding the needs of our customers we have effectively incorporated a feedback system wherein customer suggestions and responses are channelized back to us through customer feedback form and constant interaction by our efficient sales & after sales service personnel.

Our company is operational over 3 decades with emphasis on further improvement of quality. The ROI (Return on Investment) is guaranteed by increasing the productivity with 100% guaranteed Uptime. We spare no efforts to ensure our products will pass the most stringent quality control test at every phase of manufacturing. Significantly our UPS systems are thoroughly tested by DGS&D-QA, ERTL, SAMEER, CPRI and ETDC. We have all relevant IEC Certificates for our Solar Invertors as per MNRE standards and also for UPS as per industrial standards.

Service:

Powerone has set up an efficient and fully functional service network with toll free number across the country backed by an experienced team of professionals. We are fully geared

to support our customer needs with specially trained service technicians round the clock. Their services are available at all stages from installation to commissioning and to daily operation.

We have introduced mobile service vehicle in all our Major Branches for the Round the clock service which is well equipped with all the necessary spares and tools to service our UPS systems, thus by meeting the targeted MTTR of less than 4 hours.

All preventive maintenance visits are conducted with a service report, which shows clearly the conditions of Power One UPS. The customer is thus benefited with the data of least breakdown time. Round the clock service is also provided for critical installation from all service centers. We also offer a broad range of standard and special service contracts.

Major achievements:

MILESTONES IN OUR QUEST FOR EXCELLENCE.

Power-One Micro Systems Pvt. Ltd is indigenously developing Static Voltage Stabilizer with high-speed voltage correction, EV chargers, Solar Pump controllers and BIS/ Powergrid approved Industrial sinewave invertors

Our Hybrid Solar Inverters (Off Grid with Grid Export and Net meter) in which the electricity generated during the sun hours can be used directly to cater the loads and to charge the batteries as well simultaneously also the excess generated electricity can be exported back to the grid and which will recorded in the net meter.

Our Major Projects include SSA, DSERT, Dept of Stamps and Registration, KSEB, Revenue Department Project through HCL, Department of Treasuries Project through TCS, Hybrid Solar Power Plants to BELTRON CCTV Project, BEL Defence project, Solar OFF GRID Plant at Revenue Department, ANERT, Solar Pump at Minor Irrigation, Hybrid Solar Power Plants to BELTRON BSWAN 2.0 Project, Hybrid Solar Power Plants to BSWAN Project, Kerala State Wide Area Network (KSWAN), WBSEDCL IPDS Project.

We have supplied around 250 MW of solar Inverters to Major Solar Integrators like TATA. BHEL, REIL, L&T, Vikram Solar, Chloride, Kirloskar, BEL, NTPC, PGCIL, BOSCH, SWLECT, Mahindra and also supplied to almost all State Govt Renewable Agency Projects. As a System Integrator we have Supplied, Installed and Commissioned more than 25 MW of Solar Power Plants across India for various Govt. Projects.

Our major Customer Includes DRDO, ISRO, Railways, CSIR, Defence Organisations, BEL, HAL, BEML, Research Institutes, State & Central Govt. Departments, AAI, HCL, TCS, WIPRO, TATA, L&T, Brigade Group.

Our Products are approved in MES, DRDO, ANERT, KPTCL, KPCL, ESCOMS, AAI, Power Grid, HPCL, HAL, BEL and in almost all State & Central Government Organisations and PSUs. We are empanelled in many State Nodal Agencies to provide Solar Power Plants and Solar Inverters.
