ENGINEERS**

We break the inherent thinking, tear off the traditional label to follow the trends, redefine the new standard of "Intelligent Creation."

Core Values

Quality is the foundation, Customers are always the priority
Win-Win Cooperation and Continuous Innovation

Jin Qiang's Vision

Create a World Class Laser Enterprise, cultivate a professional partnership company, and devoted to all Mankind

JinQiang's Mission

Laser Changes The World

02-03 About Us

- 01 Introduction of JQ laser
- 03 JQ's Honours

52-53 APPLICATION

- 53 Industry Applications

Jinan Jingqiang CNC Equipment Co., Ltd. was established in 2006. It is a high-tech industry focusing on laser application and sheet metal automation composite equipment research and development, production and sales.

The company's products are divided into five series: tube laser cutting machine, sheet laser cutting machine, laser engraving, laser marking, and laser welding.

JQ Laser currently has more than 200 employees, technology research and development and after-sales service account for more than 50%, we have a professional quick response customer service team, providing 24-hour online and offline technical services in 12 languages. Now JQ Laser exports to more than 100 countries and regions around the world relies on reliable product quality, reasonable price and perfect after-sales service system. "With my sincerity, you can rest assured" JQ has been on the road for research and development and innovation. In order to meet market demand, the launch of the three-chuck laser pipe cutting machine can achieve "zero-failing" for pipe cutting. Its high-precision and high-efficiency automation technology is industrial intelligence.

JQ Laser adheres to the business philosophy of "creating a century-old laser enterprise and cultivating a professional partnership company", constantly improving product quality, and becoming an enterprise loved by employees, trusted by customers, respected by the industry, and recognized by the society!

HONOR >>

Main Components >>

- IPG

The laser comes with various beam delivery and processing head options providing the ultimate flexibility in optimizing one laser for many different applications

- Precitec

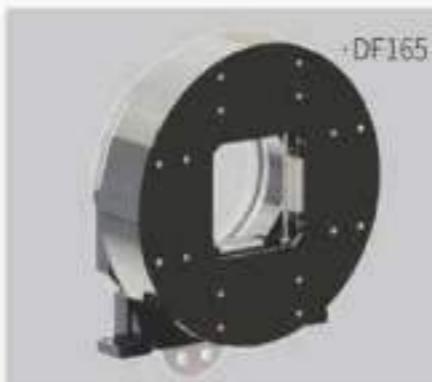

German original brand fiber cutting head, unique optical configuration, and air path design can adapt to the cutting processing of different thickness plates and pipes, good sealing and specific design, very suitable for pipe processing needs

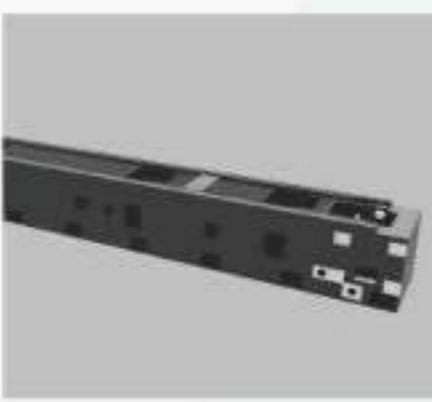

- PA+ALMA

The standard Alma nesting software can be used by importing the processed drawings, which simplifies the processing flow and improves work efficiency. Good compatibility, higher matching with automatic loading and unloading system, and more flexible control

- Precise Pneumatic front and rear chucks

- Strong Machine Base, Automatic loader and unloader

ET SERIES

FLT-12035ET

Three Chucks

Fiber Laser Tube Cutting Machine

Technical parameters

Machine model	FLT-12035ET
Maximum Cutting Length	≤12000mm (472.44")
Maximum Weight for each tube	500kg (1102lb)
Cutting diameter	15~350mm (0.59"~13.78")
Rotary speed	80rpm
X.Y.Z axis position accuracy	±0.05mm/m
Minimum Tailing	0mm
Maximum Running Speed	60m/min (197' /min)
Power Supply	380V/50Hz

Application industry

FLT-9035ETN

Automatic Three Chucks
Fiber Laser Tube Cutting Machine

■ Automatic Loading 9 meters

■ Automatic Unloading 9 meters

■ Technical parameters

Machine model	FLT-9035ETN
Maximum Cutting Length:	≤9000mm (354.3")
Maximum Weight for each tube	250kg (551lb)
Cutting diameter	15~350mm(0.59"~13.78")
Rotary speed	80rpm
X.Y.Z axis position accuracy	±0.05mm/m
Minimum Tailing	0mm
Maximum Running Speed	60m/min (197' /min)
Power Supply	380V/50Hz

Application industry ■

FLT-8045ET

Automatic Three Chucks
Fiber Laser Tube Cutting Machine

Technical parameters

Machine model	FLT-8045ET
Maximum Cutting Length:	≤8000mm (315")
Maximum Weight for each tube	700kg (1543lb)
Cutting diameter:	20-450mm (0.79-17.72")
Rotary speed	80rpm
X.Y.Z axis position accuracy	±0.05mm/min
Minimum Tailing	0mm
Maximum Running Speed	60m/min
Power Supply	380v/50Hz

Application industry

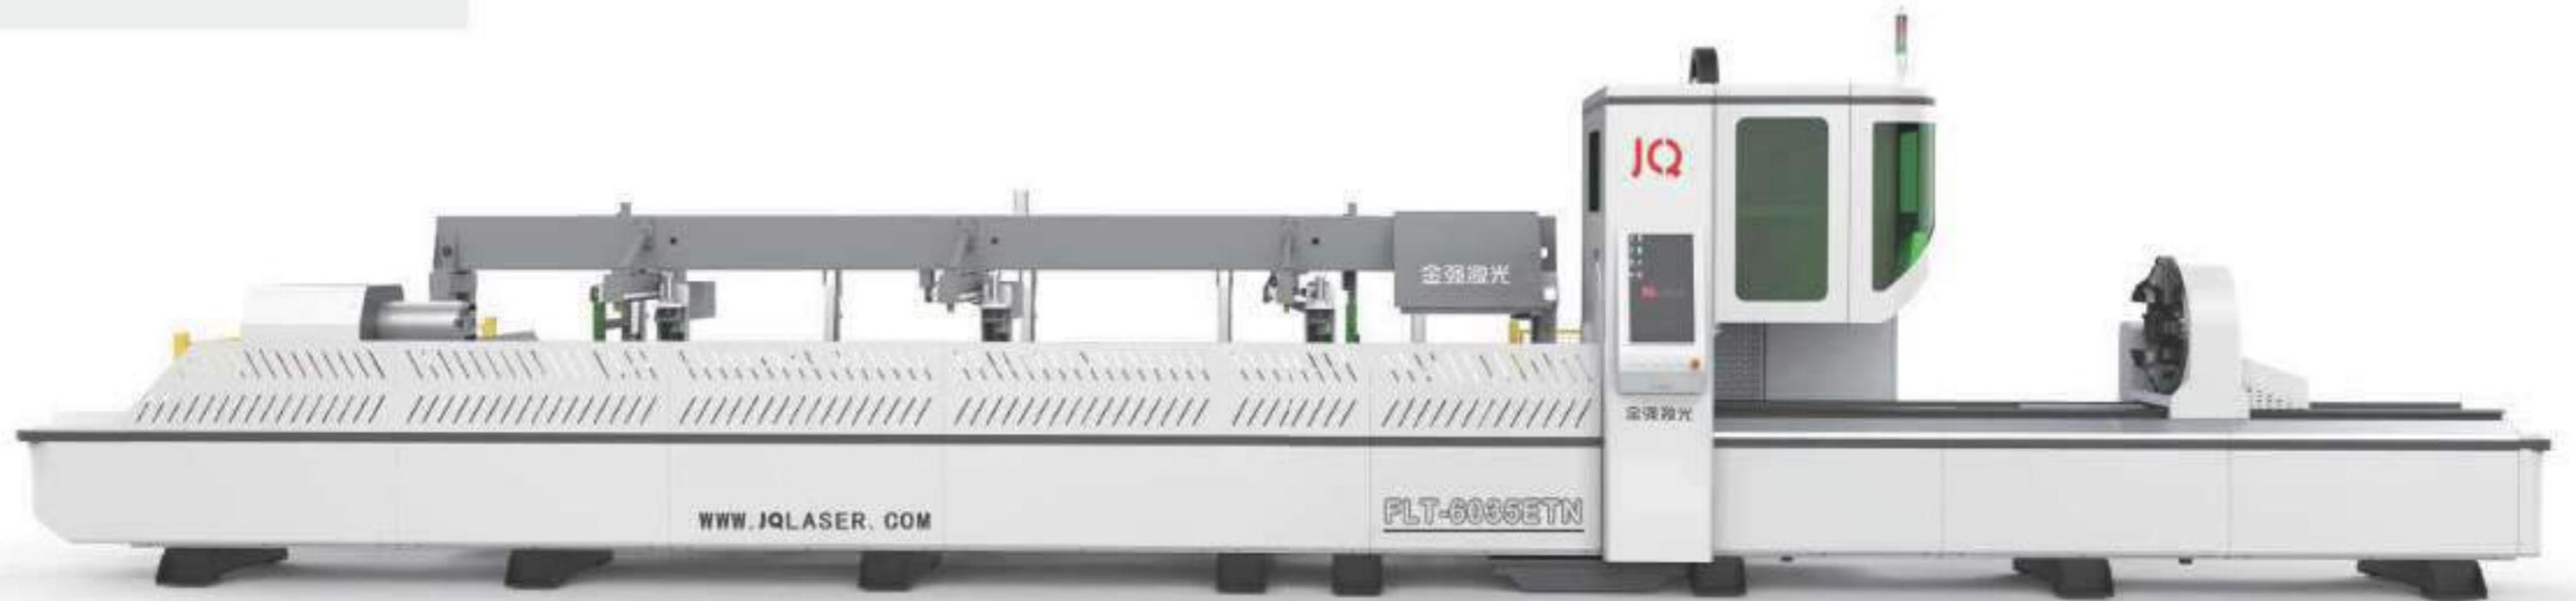

ET SERIES

FLT-6035ETN

Three-chucks
Laser Tube Cutting Machine

Technical parameters

Machine model	FLT-6035ETN
Max cutting length	≤6000mm(236.22")
Max weight for each tube	250kg(551lb)
Cutting diameter	15~230mm(0.59"-9.05")
Rotary speed	120rpm
X.Y.Z axis position accuracy	±0.05mm/m
Min tailings:	0mm
Maximum Running Speed	75m/min(246' /min)
Power Supply	380V/50Hz

Samples

H SERIES

H1

Three-Chucks
Fiber Laser Tube Cutting Machine

Technical parameters

Machine model	H1
Maximum Cutting Length	≤6000mm(236.22")
Maximum Weight for each tube	250kg. (551lb)
Cutting diameter	15~160mm (0.59"-6.3")
Rotary speed	100rpm
X.Y.Z axis position accuracy	±0.05mm/m
Minimum Tailing	0mm
Maximum Running Speed	75m/min (246' /min)
Power Supply	380V/50Hz

Samples

H2

Semi Automatic Three-Chucks
Fiber Laser Tube Cutting Machine

Technical parameters

Machine model	H2
Maximum Cutting Length	≤6000mm(236.22")
Maximum Weight for each tube	250kg(551lb)
Cutting diameter	15~160mm(0.59"-6.3")
Rotary speed	100rpm
X.Y.Z axis position accuracy	±0.05mm/m
Minimum Tailing	0mm
Maximum Running Speed	75m/min(246' /min)
Power Supply	380V/50Hz

Samples

H SERIES

>>

H3

Automatic Three-Chucks
Fiber Laser Tube Cutting Machine

Technical parameters

Machine model	H3
Maximum Cutting Length	≤6000mm(236.22")
Maximum Weight for each tube	250kg(551lb)
Cutting diameter	15~160mm(0.59"-6.3")
Rotary speed	100rpm
X.Y.Z axis position accuracy	±0.05mm/m
Minimum Tailing	0mm
Maximum Running Speed	75m/min(246' /min)
Power Supply	380V/50Hz

Samples
