ABOUT US

We feel immense pleasure while introducing ourselves to you as one of the best and leading manufacturers and exporters of **Plain Washers, Spring Washers, Riplock Washers, Star Washers, External Tooth Washers in GEOMET & Hot Dip Galvinising** in India. **Rajeshwari Lalit Industries** was established in 1978 Ludhiana. Under the supreme guidance of **Mr. Rakesh Malhi** the industry has gained fame in the city and the nation too through extreme efforts and continuous dedication to its quality production. We are producing best quality and most reliable products that always match International quality standard.

Our mission is to maintain the quality of our products and add more features to it based on time and advanced technology. Our main focus is on the service and quality taking into consideration customer requirements. Our research is continued for producing most perfect, advanced, and durable products. We take care of our customers and modify our products according to their requirement or order. We are keen on providing our products before timeline so that our clients could be happy and stress free. **As we are an ISO 9001:2015 certified production unit**, the cost of our products, is affordable and economic too. Our rates are quite competitive and genuine. We always give better than what our customers expect from us.

Our metallic products are mostly required for all small, medium and large scale industries. These are widely used in **Wind Turbines, Electrical, Hardware, Vehicle, Autos, Two wheelers, Steel, Railway, Bicycle, Furniture, Shed Making** and several other industries plus engineering workshops. The products are corrosion and defect free. We use superb quality of raw material and machinery for manufacturing the products.
